

# UPDATE: HAITI IN CRISIS

March 1, 2010

Recently, our Latin American Coordinator returned from a trip to Haiti. Jose reported that the circumstances in Port-au-Prince remain tumultuous and desperate. The need for investment in the restoration of buildings and infrastructure is extraordinary. CH Global is devoted to promoting long-term recovery and securing hope for the helpless.

In the midst of a tragic atmosphere, Jose was witness to the hope of the human spirit.

Not only was he involved with the distribution of aid to our sponsored children, but also worked toward the establishment of a new school program in Sylbert, Port-au-Prince. The children are in need of so much certainty and routine at this time, and the opening of this school is a beacon of hope for their future. Through the partnership of CH Global and UBIC churches, the launch of this school took place today! We are so thankful for your continued support and for the Lord's faithfulness in this project.

Please continue to consider the scope and lasting effects of any contribution to Haiti, particularly the impact of Child Sponsorship.

Thank you, and bless you for your partnership.
